

# Craig Hospital Inventory of Environmental Factors

© (for information contact charrison-felix@craighospital.org or dmellick@craighospital.org)

Being an active, productive member of society includes participating in such things as working, going to school, taking care of your home, and being involved with family and friends in social, recreational and civic activities in the community. Many factors can help or improve a person's participation in these activities while other factors can act as barriers and limit participation. First of all, do you think **you** have had the same opportunities as other people to participate in and take advantage of:

education	_____yes	_____no
employment	_____yes	_____no
recreation/leisure	_____yes	_____no

First, please tell me how often each of the following has been a barrier to your own participation in the activities that matter to you. Think about the past year, and tell me whether each item on the list below has been a problem **daily, weekly, monthly, less than monthly, or never**. If the item occurs, then answer the question as to how big a problem the item is with regard to your participation in the activities that matter to you.

(Note: if a question asks specifically about **school or work** and you neither work nor attend school, check not applicable)
